PROFESSIONAL SUMMARY

IT Operations and Identity Management professional with extensive experience in service desk coordination, identity and access management, infrastructure, and cybersecurity. Skilled in the Microsoft 365 ecosystem, ITIL 4 practices, and IAM frameworks. Holds internationally recognized certifications including CompTIA Security+, Microsoft SC-900, MS-900, and ITIL 4 Foundation. Graduated in Computer Networks from IFRN (Brazil). Currently based in Lisbon, Portugal.

PROFESSIONAL EXPERIENCE

Service Desk Coordinator Trainee | Oct 2024 — Present

Van Ameyde Systems · Lisbon, Portugal · Hybrid

- Service Desk coordination: ticket distribution, workflow management, and SLA/KPI monitoring.
- Identity and access management in Microsoft Entra ID, including Conditional Access policy configuration.
- Application deployment and management via Microsoft Intune and Windows Autopilot for device provisioning.
- L1/L2 support in Microsoft 365: user management, access control, and incident resolution.
- Application of security best practices in access control, incident handling, and knowledge base development.

Field Engineer Technician | Jul 2023 — Jul 2024

Diebold Nixdorf · Lisbon, Portugal · Hybrid

- On-site installation, maintenance, and repair of ATMs, commercial automation systems, and terminals.
- Technical troubleshooting, fault diagnosis, and replacement of defective components.
- Performance metrics monitoring and technical compliance for corporate clients.

IT Technical Operations | Aug 2022 — Jul 2023

ALSA · Lisbon, Portugal · On-site

- Participated in the planning, implementation, and go-live of an urban mobility embedded systems project for Transport Zone 4, in partnership with Carris Metropolitana.
- Served as the primary technical and operational liaison between Portugal and Spain teams, ensuring project alignment and continuity.
- Managed IT infrastructure with a focus on Google Workspace, network planning, and data centers.
- Implemented governance policies (ITIL, ISO 27001) and led responses to critical operational incidents.

Service Desk — Mid-Level | Jun 2022 — Aug 2022

Olisipo · Lisbon, Portugal · On-site

- Remote technical support for end-users, resolving hardware, software, and network incidents via ITSM tools.
- Managed service tickets ensuring SLA compliance and thorough solution documentation.
- Led workstation migration to a cloud environment with minimal operational downtime.

IT Support Technician | Feb 2014 — Jun 2022

MacRepair · Natal, Brazil · On-site

- Implemented and administered Active Directory for centralized user management and access policy enforcement.
- Developed and configured an internal ticketing system to improve service tracking and request control.
